LED PROFILE LIGHT SUPPLIER

INVISIBLE LIGHT LINEAR LUMINAIRES L5570

Area: Indoor Luminaires

Mounting: Pendant (integrated driver) / Surface-mounted (integrated driver)

Invisible light designed linear luminaire for general lighting.

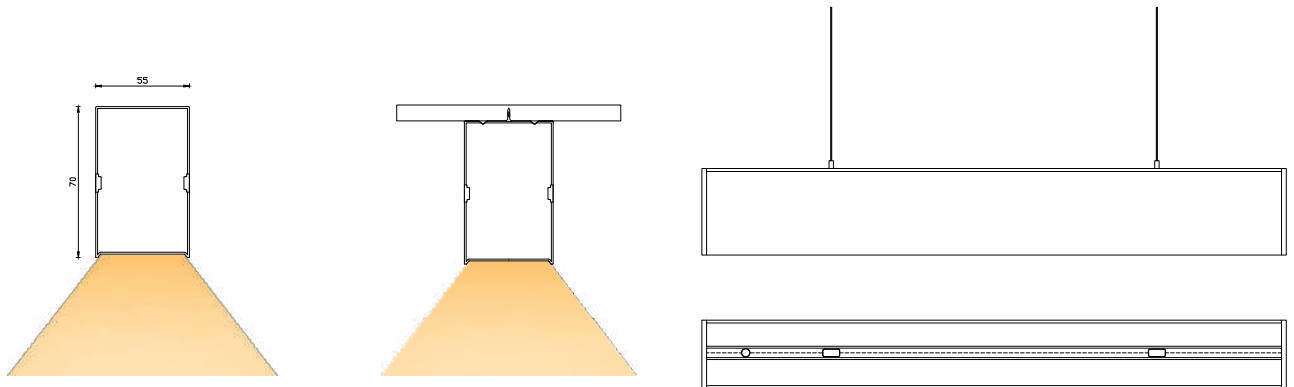

This invisible light linear comes in different shapes and lengths. It has two different mounting possibilities: pendant and surface-mounted.

The 80-degree beam angle combined with antiglare provides nearly invisible light with UGR as low as < 19.

Energy saving and high efficiency compared with ordinary linear lights with an energy efficiency that is 2-3 times higher than ordinary ones.

Built-in LED drivers simplify installation and save space, making the process more convenient and optimizing space application.

DIMENSIONS & AVAILABLE LENGTHS

Dimension: L = 1200 mm , H = 70mm , W = 55mm

Product available lengths: 600mm, 1200mm, 1800mm

Housing color: White / Black
